

# SHOWCASING EXCEPTIONAL DESIGN

AIS Showroom  
Chicago, IL

StudioCraft teamed up with AIS to produce custom elements for their new showroom in Chicago's Merchandise Mart. The partnership was logical because of how we work closely with them to enhance their statement of line.

Using their standard laminate desk as a base, StudioCraft elevated the design with seamless Corian and an internally lit AIS logo which disappears completely when switched off, creating a sleek focal point for this space.

In addition, our team crafted a large island and other coordinating Corian surfaces perfectly integrated with AIS products.

A showroom of this caliber that is designed with precise attention to detail opens up possibilities for these types of spaces to be created for future clients in a variety of offices and workplaces.
