

STUDY BUDDIES

University of Mississippi School of Medicine Jackson, MS

What started as a request for special furniture applications led to long-lasting partnership between StudioCraft, our dealer partner, and the University of Mississippi School of Medicine.

This project included a large number of study carrel desks for the School of Medicine. After the architect refined their concept, our dealer partner brought in StudioCraft to work with the furniture manufacturer and deliver a hybrid solution that would deliver the performance and finishes they sought.

To achieve this, we used finishes that exactly matched those of the furniture manufacturer. We also added additional flourishes, including illuminated 3form Chroma top caps and power cutouts on standard veneer tiles.

Since working on this project, the dealer has relied on StudioCraft to provide additional solutions for the University.
