

ELEVATED WORKPLACE SOLUTIONS

Yeo & Yeo Headquarters
Troy, MI

StudioCraft brought this striking design vision to life for Yeo & Yeo's Troy, MI office. We worked closely with our design partners to ensure all materials, finishes, and necessary modifications were perfectly executed to match the client's vision.

The focal point of the lobby is the custom reception desk, featuring laminate worksurfaces, a sleek Corian transaction top, and a custom 3D applied lettering logo. The integrated laminate slat design matches the adjacent accent wall, creating a cohesive and sophisticated look. Power integration was thoughtfully incorporated for convenience and functionality.

The office's kitchen island, also produced by StudioCraft, features a sleek Corian top and a durable laminate exterior, and includes both integrated trash receptacles and cabinetry.

The final installation on-site showcases the seamless blend of design, materiality, and functionality, making this project a standout addition to Yeo & Yeo's office environment.
